

Artiman is an early stage sector agnostic venture fund with offices in Silicon Valley and Bangalore. We are seeking to invest in entrepreneurs building white space companies that have the potential to create or disrupt multi-billion markets. As former entrepreneurs, we bring empathy, curiosity, passion, experience, and (occasionally) patience to the table. As investors, we bring capital plus access to a network that reflects the diversity of the firm and our portfolio. Artiman was founded in 2001 and has over \$1 billion under management.
