

Founded in May of 2013 and based in San Francisco, California, Aseta is the best place for companies to quickly and safely buy semiconductor parts from suppliers around the world. Whether it's a used chamber assembly, a refurbished power supply, or a new o-ring in factory sealed packaging, Aseta helps you find the part you need, in the condition you need it, at 50-60% less than OEM pricing.

Find exactly what you need

Aseta has 450,000+ part and equipment listings from fabs, refurbishers, & dealers.

Buyers save between 40-60% on parts they purchase from the Aseta Marketplace.
